

AIDI 1001 Conversational AI – Activity 2 - GitHub

GitHub is where people build software. More than 83 million people use GitHub to discover, fork, and contribute to over 200 million projects. As a developer/ data scientist maintaining your GitHub profile is just as important as your LinkedIn profile. If you do not already have a GitHub account, please create one. Use whichever email address you use the most. It doesn't have to be your Georgian Email.

Once you have your profile setup. Create a code repository. It is your choice if you want to make the repository either public or private. Take a screenshot similar to the one shown below. Be sure to include the URL in your screenshot.

Evaluation

- 1M – Completing a GitHub profile.
- 1M – Creating your first code repository.
