Assignment #1: Tell Us About Yourself
Course: AIDI 1011 – AI Project
Professor: Sanjeev Kumar

Overview

In every class, there are students who participate and those who do not. Usually, it is the same group of people who raise their hands and show a keen interest in learning. Then there are students who are reluctant to speak up either because they are introverted, or they are not sure how they can contribute to the conversation.

An important skill for students is to speak in a way that demonstrates their confidence, mastery of course concepts, and the ability to apply that knowledge to real world projects. Not only does this lead to richer team discussions but it also enables students to become more skilled at refining their ideas.

The purpose of this first assignment, called "Tell Us About Yourself", is to encourage students to get out of their comfort zone and build relationships with their team members, their fellow students, and their course instructor.

Instructions for CREATING your video

This first assignment will be INDIVIDUAL; everyone will complete it "asynchronously" using a recorded video link.

For this first exercise, you are going to prepare a 5-minute video that tells others about you.

Below are the **8 questions/statements** you need to include in that video:

1. What is your name?
2. What do you enjoy doing outside of school and work?
3. What is one unique characteristic that people may not know about you?
4. State your skills and experience and how they relate to the project you have been assigned to
5. What is 1 strength that your team possess that you will continue building upon?
6. What is 1 weakness that your team possess that you will work on improving?
7. How will you handle team conflict?
8. How will you communicate with your team members?

Instructions for SUBMITTING your recorded video link
